Certificado de Créditos de Carbono

Este certificado no es transferible, ni comercializable

Condominio Escazú Village Vertical, Comercial, Residencial Y De Oficinas

Have acquired 500,00 carbon credit units (tons of carbon dioxide equivalent CO2e) from the Caribe Project.

Fonafifo is authorized by Forest Law 7575, its Regulations and modifications, to develop carbon credit projects for the national and international market. The money raised is applied to the Payment for Environmental Services Program (PES), in forest maintenance and restoration activities. Fonafifo won the UN Global Climate Action Awards - Financing for Climate Friendly Investment in 2020. In 2021, in recognition of the Protected Areas System and the PES Program, Costa Rica received the Earthshot award in the category of "Protect and Restore Nature. In 2024, the Global Excellence award presented to the country in Dubai, highlighted the Program of PES. Costa Rica is the only country in Latin America that has reversed the deforestation process. www.fonafifo.go.cr.

Certificate Number

Legal Identification:	3109735995
Transfer Amount:	\$ 3 750,00
Transfer Number:	000000014
Bank Name:	Banco Nacional de Costa Rica
Transfer Date:	miércoles, 4 de junio de 2025
Quantity of Tons:	500,00 tonCO2e
Project:	Caribe
Reason for Compensation:	Compensación Emisiones Combustibles
Observations:	

Vieras Que Mejoré Esto.

This Certificate does not generate any property or possession rights over the lands where the Payment for Environmental Services Program of Costa Rica is executed. The Costa Rica Compensation Units (carbon offset) for the domestic carbon market is a mechanism used for Fonafifo to raise financial resources to pay for environmental services. Voluntary compensation of greenhouse gas emissions enables actors to take responsibility for their remaining emissions by supporting additional mitigation outcomes that occur outside the actors boundaries.
